FUTURE DENTAL ACADEMY

YOUR FUTURE

STARTS WITH A COURSE AT THE FUTURE DENTAL ACADEMY

COURSE PROGRAM 2026/2027

MIMI®, internal direct sinus lift, immediate implants, narrow jaws

Get hands-on experience with MIMI® treatment in patients – Minimally Invasive Medical Implantation. This proven implantation method, developed by our lecturer Dr. Nedjat 30 years ago and honored with multiple awards, allows you to prepare the cavity and insert both one-piece and two-piece implants yourself. The practical workshops and live surgeries are carried out with premium implants and guided by our expert team.

MIMI® is a true "revolution": with its unique workflow, it provides time and cost advantages while ensuring outstanding patient satisfaction.

Our course is designed for beginners in dental Implantology and for practitioners switching systems looking to keep their knowledge up-to- date – while saving €900 in operating costs per single implant.

Insights into the course
